

Global Explorers realizes that the word “disability” is term that comes with many different stereotypes and judgments. Over the years we’ve also witnessed these stereotypes be shattered into pieces throughout our program and that the notion of a disability is often a relative concept. The goal of the Global Explorers Leading the Way program is to integrate individuals with and without disabilities for a meaningful, fun, and educational experience with the focus being on the abilities and strengths of all the participants. In order to achieve this goal, we need to know a little about you!

Please tell us more about yourself and what, if any, accommodations you may need in relation to your disability. This is important to ensure this a successful trip for you and your fellow teammates. Please don’t hesitate to contact Global Explorers with any questions or concerns. 877-627-1425 LeadingTheWay@GlobalExplorers.org
