

WHAT WE TEACH

EXPLORE YOUR WORLD

Scientific Curiosity & Competence: Students develop a curiosity towards the natural world and understand the complexity of interrelationships between human and environmental systems.

Cultural Curiosity & Competence: Students build curiosity, respect and tolerance for different ways of life and experience our connectedness with people around the world.

Career Exposure & Leaders that Inspire: Students learn about the motivating factors behind career choices made by a diverse group of professionals and develop ideas about fulfilling careers for themselves.

Service Knowledge: Students explore the meaning of service-learning and civic responsibility and navigate the challenges of working with communities to identify and evaluate needs.

DISCOVER THE LEADER WITHIN

Self-Awareness: Students explore the ways they see themselves, others, the world and their place in it.

Communication: Students learn to listen, to appreciate diverse perspectives and to improve their peer-to-peer communication skills.

Collaboration: Students learn about creating a shared vision and utilizing the skills of all team members.

Critical Thinking Skills: Students practice problem solving, analysis, logic and reflecting on the big picture using systems thinking.

Self-Direction: Students explore their personal passions, adaptability, sense of responsibility and personal vision.

Information Literacy: Students investigate various forms of knowledge acquisition, source discernment and management of complex information to deepen the quality of their analyses.

Our Mission is to inspire responsible global citizenship by providing life-changing travel experiences for students and educators of all abilities and backgrounds.

Our unique educational model equips students to explore science and culture for a deeper understanding of the world, to discover their personal interests and to tackle community issues with passion and wisdom.

INSPIRE CHANGE

Appreciation for Life: Students deepen their appreciation for the opportunities they have in life and recognize that there are many ways to make a difference in the world.

Take Action: Students take action and engage in service before, during and after their Global Explorers expedition.

Service Attitude: Students develop confidence in their ability to inspire change and demonstrate an ongoing willingness to spend time bettering communities at home and abroad.

“I not only gained academic knowledge, but also learned about the importance of an open mind and an open heart, the power of smiling at a stranger and so much more. Global Explorers is a family that gives young adults incredible opportunities and teaches life skills that make us all better people.”

- Laura, Student Explorer
